

**Benax Solar & Borehole
Solutions Ltd**

No Blue, No Green

PRODUCT DATASHEET

Pipes 1.25" Borehole Pipes

Quality

- Does Not rust nor react with chemicals
- Odourless and Tasteless
- 25% higher discharge compare to G.I. Pipes
- No friction Loss due to smooth surfaces
- Long Life / Non toxic / Lead free
- Saves Energy upto 30%
- Non-toxic and Lead free
- Rigid with high impact resistance
- Light-weight
- 100% leak proof
- Does Not rust nor react with chemicals
- No friction Loss due to smooth surfaces
- Long Life / Non toxic / Lead free
- Saves Energy upto 30%
- Long Life without replacement
- Light-weight
- Non-toxic and Lead free

Operating Conditions

The Borehole Pipe 1.25 and Adaptor Set is a robust and versatile solution designed for efficient and reliable borehole applications. Crafted from high-quality materials, this pipe and adaptor set is engineered to withstand the demanding conditions of borehole environments, ensuring longevity and optimal performance.

The borehole pipe itself measures 1.25 inches in diameter, making it suitable for a range of borehole drilling and water extraction needs. Its construction is characterized by durability and corrosion resistance, ensuring that it can endure exposure to various elements without compromising its structural integrity.

The set also includes a carefully designed adaptor, which plays a crucial role in connecting the borehole pipe to other components or systems. The adaptor is precision-engineered to provide a secure and leak-proof connection, reducing the risk of water loss and ensuring the efficient transfer of fluids.

Installation of the Borehole Pipe 1.25 and Adaptor Set is straightforward, thanks to its user-friendly design and compatibility with standard borehole drilling equipment. The set is adaptable to different drilling rigs and systems, making it a versatile choice for various borehole applications, including water supply, geotechnical investigations, or environmental monitoring.

Whether used in agricultural, industrial, or domestic settings, the Borehole Pipe 1.25 and Adaptor Set stands as a reliable and durable solution, meeting the demanding requirements of borehole operations while facilitating the smooth extraction and transfer of water or other fluids. With its high-quality construction and thoughtful design, this pipe and adaptor set provides a dependable foundation for borehole installations, contributing to the efficiency and success of diverse projects.
